

LEVEL II IFS: A Compassionate Approach to Addictive Processes – IFS, Addictions and Eating Disorders (925)

Online (2023)

11th-13th / 18th-20th of October

THE TRAINING

IFS brings an innovative, new perspective to working with people with addictions and eating disorders. The current field is replete with treatment modalities and information that often offer conflicting ideas about how to best treat addictions and eating disorders. IFS can move us into a new dimension of treatment with this challenging population and offers ways to neutralize polarizations that can occur in the traditional treatment milieu. IFS also enables us to access and heal the beliefs, burdens, emotions and energies carried by parts of the client that are masked by addictions and eating disorders.

- The importance of Self-energy in the healing process.

Participants will learn:

- How to define and view addictions and eating disorders from the IFS perspective.
- How to apply basic, key concepts of IFS to addictions and eating disorders.
- To develop an IFS skill set, including techniques such as un-blending, collaboration and negotiation, and direct access with extreme firefighters.

In this context, participants will be encouraged to:

- 1 Recognize** and acknowledge their personal beliefs and reactions towards addictions and eating disorders (extreme firefighters).

- 3 Experience ways** to access and maintain Self-energy when working with clients.
